DANIELSON

A musical festival and graduating exercises marked the close, Tuesday afternoon, of the graduation of the town of Killingly for the school year. This important affair in the lives of scores of young people who have completed their grade school work or who are climbing toward that coveted place on the broad highway of education brought a large audience to the town hall, those assembled being representative of many sections of the town of Killingly.

This year the annual musical festival in which the grade school children have participated for years past was combined with graduation, to make an event of importance and so successfully were the plans carried out that it is likely that the arrangement may be made permanent.

The hall was prettily decorated with flags and streamers of the national colors and the front of the stage was banked with ferns and the letters K. G. S. worked out in flowers.

The musical part of the program included the presentation of the operetta Flora, by pupils of grades 2-5 of the Danielson graded school; a solo vocal number by the eighth grades of the different schools; They Met on the Twig of a Chestnut Tree, quartet of the Danielson school; Little Tulpin, East Killingly; The Birth of Joy, two parts, Dayville schools; Mew, sub-primary school of Goodyear; Dixie, three parts, Ballouville schools; Almost Blossoms, two parts, Attawaugan schools; Good-bye, three parts, Dayville schools; America! all schools.

Diplomas to the graduates of the eighth grades of the various schools of the town were presented by Robert W. Boys, of Goodyear, member of the town school committee. Prize awards were made by Supervisor Henry P. Turner of the schools in Killingly and Brooklyn. In the supervisory district made up of the towns of Killingly and Brooklyn 64 pupils have successfully completed the eighth grade work. All of these who were students in Killingly's public schools received diplomas at Tuesday's graduation. The complete list of the eighth grade graduates, including Brooklyn pupils and St. James' parochial school in Danielson, follows:

That the operatives at the plant of the Goodyear Mills Company, Inc., know a good thing when they see it is attested by the manner in which they have dipped with subscriptions for the latest stock issue of the Goodyear Tire and Rubber Company, the parent company, with headquarters at Akron, up to Tuesday evening the operatives at Goodyear had taken \$47,000 worth of stock, and subscriptions were still coming in, though the books there were to be closed Tuesday evening. Such subscriptions from the operatives establishes a number of important facts as to the relation between the big corporation and its workers. First of all is the spirit of confidence between the men who direct and produce and the men who produce and make a demonstration of co-operation for which Goodyear interests are famous, and, third, is the fact that the workers think stock paying as an investment as good as any other.

It is for men or women with large means. The stock that has been sold at Goodyear has been let out in blocks of three shares—two shares of preferred and one share of common. The preferred is a 7 per cent stock, the common "not less than 10 per cent" but operates with the common. Men who will not get them that they are receiving 12 per cent.

First rumblings of the coming political campaigns are heard in Killingly and especially at the present time in Danielson. It was stated here Tuesday that a conference of members of the rank and file of the democratic party may be expected within a short time after the national convention to formulate plans for naming candidates this fall.

Chief interest seems to center in possible candidates for representatives in the legislature, and for senator from the district. The rank and file of democrats in the town of Killingly is made up of wage earners and naturally their sympathies with candidates who are in accord with labor's reasonable views and ambitions.

Experiences of the past two years have taught many democrats here that respectability of candidates, many of them time-honored but unsuccessful, is not sufficient to meet the present day needs of the party in this town. The workers here feel that the democrats among them—that the naming of representatives in the past has been no more than a mere formality; that no one knew nor cared what the candidates stood for; they were accepted in the broad sense that they were democrats.

Such candidates no longer will suffice. If one may believe what is now being said about the town. Men who will come out in the open before they get a nomination and say squarely where they stand on big issues that are before the country will be the ones to lead the rank and file that they have with in their power to see that only such men are seriously considered.

A man whose views on big issues in which workers are vitally interested are not fully in accord with those of the rank and file will not be acceptable, and the coming conferences are intended to bring about the selection of such candidates as are wanted.

Members of the senior class of Killingly High school have been photographed individually, preliminary to the use of the pictures obtained to make a group portrait of the class.

Putnam people may expect an advance in the rates for gas manufactured by the Putnam Light and Power company. It was stated on Tuesday that the coming is at present losing approximately \$10 a month on its gas business. Just when the rates will go up has not been determined as yet, it was stated on Tuesday.

The silver cups that are offered as trophies in golf events scheduled by the Putnam Country club, Thursday and Saturday of this week, are on display here and are attracting not only the attention of the golfers, but of many others who never saw links outside a chain.

A big field is looked for Thursday afternoon as it brings the first half-holiday of the season for Putnam's business men and the clerical forces of the stores. Saturday also being a half-holiday for many members of the club, another long list of players is looked for as competitors for honors and the trophies.

The fixing of the bonds of two men arrested in Thompson at \$2,000 while they are awaiting trial on a charge of illicitly manufacturing intoxicants is indicative of what the federal courts intend to do with violators of the Volstead act. One well known attorney here is authority for the statement (quoting an enforcement official with whom he recently talked) that the government is going to deal severely with all offenders and that heavy fines and jail sentences may be looked for. Federal officials will follow up, too, this attorney says, cases that come into town and city courts on charges of selling intoxicants. This means that a man fined in the Putnam city court for selling fakey or cider, for instance, will be taken in hand by the federal officials and fined again. Manager Thomas McDermott of the North Grovesville baseball team has been negotiating this week for a stellar attraction for next Sunday, but up to Tuesday afternoon, no one was not ready to make any announcements. If his plans are successful, the fans have a big treat coming to them.

Of particular interest to people here who are especially interested in educational matters is the fact that young men coming out of various schools in towns hereabouts this week are signifying their intention of entering the Putnam Trade school, which is steadily winning the wider recognition that it always has deserved.

Gardner Richardson, of Woodstock who has been in Austria with the Hoover Relief mission, sails this week from England and is expected in Woodstock within a few days.

Garden crops, which were threatened by constant rains in early May, are showing remarkable growth under the warmth of the June sun, and chances for a big harvest seem much brighter now than it was thought could be hoped for a few weeks back.
